- ¹/₄ cup Glucose
- 2¹/₂ tablespoons Milk powder

Syrup

• 200ml Honey infused white balsamic (Reduce by half, cool)

Methods and Directions

Mandarin Jelly Terrine

- Soak mandarin segments in water and remove all pith. Soak the gelatine in a bowl of cold water for 5 minutes to soften. Gently squeeze gelatine to remove excess liquid.
- Infuse the zest and juice together in a small saucepan, add syrup and orange blossom water. Warm gently over low heat. Stir in the gelatine until dissolved.
- Arrange the mandarin segments into a terrine mould of desired shape, strain the jelly mixture and pour over the segments. Set in the refrigerator for at least 2 hours.
- For the sorbet, bring the milk, cream, glucose and milk powder to a boil over medium heat. Then brew the tea in this mixture. Cool and for creamier results refrigerate overnight.
- Churn in ice cream machine following manufacturer instructions.
- To make the syrup, reduce by half and cool. Smear a little reduction onto each plate.
- Cut terrine with a hot sharp knife into six 2cm slices and arrange on plates. Quenelle sorbet and serve on top of terrine.
